Index to volume 10

AUTHOR INDEX*

A

ABSHAGEN D: Topical agents and emergency care for minor burn injuries, 325
ANDERSON KA: Prehospital care in traumatically induced hemorrhage and exsanguination, 141

B

BRADFORD JY, O'SULLIVAN PS: Development of a cardiopulmonary resuscitation form, 65
BROWN C: Reaching out, 233 (President's Message)
—: Risky business, 277 (President's message)
BUDASSI SA: Diving emergencies, 178
—: Hickman catheter, 54
—: Ophthalmic examinations, 112

C

CARL L: Assessment of injury severity with the Trauma Score, 242
CARR K (*See* Fulmer, Street, and Carr), 131
CLOCHESY JM: Chromium ingestion: A case report, 281
COUSINS A: Glossary of psychiatric terms, 215
—: Management of the ED patient with a borderline personality disorder, 94
— (*See* Feldman and Cousins), 162
— (*See* Pelletier and Cousins), 315
— (*See* Pelletier and Cousins), 40
CRAVEN R, HEDGES J: Advances in cardiac life support: Role of diastolic pressure, 204
CUMMINS RO (*See* Knowles and Cummins), 283

D

DANIS DM: Fear in ED patients, 151
—: Paramedic practice setting issue: The legislative arena, 115
DIBNER SS: Lifeline: Monitoring home-bound patients from the emergency department, 294

E

ERNST J: President's message, 57, 181

F

FELDMAN R, COUSINS A: ED assessment of the chronic mentally ill patient, 162
FULMER T, STREET S, CARR K: Abuse of the elderly: Screening and detection, 131

G

GEORGE JE: Duty to disclose patient information, 273
—: Emergency nursing: Standards of care, 52
—: Missed trauma in the emergency department, 228
—: Record recall in the emergency department 174
—: Subpoenas, 108
—: The terminally ill emergency patient, 333
GIDLEY T (*See* Robbins and Gidley), 209
GREEN PL: The impaired nurse: Chemical dependency, 23

H

HALL MM: A clinical nurse specialist for your emergency department? 175
HALPERN JS: Acyclovir: A respite, not a cure, for primary genital herpes infections, 268
—: Advising the traveler, 168
—: Naloxone: A study of its use in shock, 222
—: Pediatric resuscitation: Making the task easier, 47
—: Rabies vaccine: Reduced risks and fears, 101
HAMMOND BB: Cardiac contusion resulting from blunt chest trauma, 236
HART D: Psychotic reaction to procaine, 9
HEDGES (*See* Craven and Hedges), 204
HENDERSON DP, SULLIVAN TV: Diagnosis related groups: Effects on nursing, 117
HOYT KS, SPARGER G: Pain assessment by ED nurses, 306
HUGHES MM: Pediatric instruction sheets, 37
—: Preparation of ED patient for hospital admission, 160
—. Urinary tract infection, 92
HURST JM: Invasive hemodynamic monitoring: An overview, 11

J

JUDKINS D: Iron overdose in a fifteen-month-old child, 31

K

KNOWLES PJ, CUMMINS RO: ED medical advice telephone calls: Who calls and why? 283
KROMASH EJ: Patient classification and required nursing time in a pediatric emergency department, 69

L

LEE G: An unusual case of impalement, 62
LENEHAN GP: *JEN* looks in the mirror, 1 (Editorial)

*January/February, pp 1-56; March/April, pp 57-122; May/June, pp 123-180; July/August, pp 181-232; September/October, pp 233-276; November/December, pp 277-344.

LESKE JS: Hyperglycemic hyperosmolar nonketotic coma, 145
LEVITT MK (*See* Walrath, Levitt, and Styka), 239

M

MARTELLI ME: Reye's syndrome: An update, 287
MENISH J: Shock secondary to massive honeybee toxin, 185
MILLER M: Staff performance evaluation: What? Why? How? 74
MOLITOR L: Nontraumatic splenic rupture in a previously healthy adult, 128

N

NEFF JA, TIDWELL SL: Acid-base balance: A tool for rapid evaluation, 322
NENNER VC (*See* Sparger and Nenner), 109

O

O'SULLIVAN PS: Analyzing communication patterns between an ED manager and staff members, 229
— (*See* Bradford and O'Sullivan), 65

P

PELLETIER LR, COUSINS A: Clinical assessment of the suicidal patient in the emergency department, 40
—: Depression update, 315

R

REITZ JA: Legal issues and risks of ED care, 82
ROBBINS DA, GIDLEY T: Must emergency departments try to save every life? 209

S

SCHERGER DL, WRUK KM: Mushroom poisoning, 194
SCHULMERICH SC: Developing a patient classification system for the emergency department, 298
SCOTT LM: Snakebite by a pigmy rattlesnake, 187
SELFRIDGE J: A competency-based orientation program for the emergency department, 246
—: Freestanding emergency centers: Issues at hand, 58 (Guest editorial)
SHEEHY SB: Primary trauma survey and immediate intervention with the use of the mnemonic ABC^4, 220
—: Protocol for multiple-trauma patients and team assignments, 265
SHERER C: Methemoglobinemia, 27
SPARGER G (*See* Hoyt and Sparger), 306
—, NENNER VC: Changes in health care financing: Implications for the ED manager, 109
STREET S (*See* Fulmer, Street, and Carr), 131
STYKA MA (*See* Walrath, Levitt, and Styka), 239
SULLIVAN TV (*See* Henderson and Sullivan), 117

T

TIDWELL SL (*See* Neff and Tidwell), 322
TURNER JT: Role of the ED nurse in health care–based hostage incidents, 190

V

VESTAL KW: Marketing concepts for the emergency department, 274

W

WALRATH JM, LEVITT MK, STYKA MA: Innovative ED nurse practitioner group practice, 239
WILLIAMS M: Use of a concluding process to assist grieving families, 254
WRUK KM (*See* Scherger and Wruk), 194

SUBJECT INDEX*

A

ABC⁴, mnemonic, use of, primary trauma survey and immediate intervention with (Sheehy), 220
Abuse of elderly, screening and detection in (Fulmer, Street, and Carr), 131
Acid-base balance, tool for rapid evaluation of (Neff and Tidwell), 322
Acyclovir, respite, not cure, for primary genital herpes infections (Halpern), 268
Advances in cardiac life support, role of diastolic pressure in (Craven and Hedges), 204
Advice, ED medical, telephone calls, and who calls and why (Knowles and Cummins), 283
Advising the traveler (Halpern), 168
Analyzing communication patterns between ED manager and staff members (O'Sullivan), 229
Assessment, clinical, of suicidal patient in emergency department (Pelletier and Cousins), 40
  ED, of chronic mentally ill patient (Feldman and Cousins), 162
  of injury severity with Trauma Score (Carl), 242
  pain, by ED nurses (Hoyt and Sparger), 306

B

Balance, acid-base, tool for rapid evaluation of (Neff and Tidwell), 322
Borderline personality disorder, management of ED patient with (Cousins), 94
Burn injuries, minor, topical agents and emergency care for (Abshagen), 325

C

Cardiac contusion resulting from blunt chest trauma (Hammond), 236
  life support, role of diastolic pressure in advances in (Craven and Hedges), 204
Cardiopulmonary resuscitation form, development of (Bradford and O'Sullivan), 65
Catheter, Hickman (Budassi), 54
Centers, freestanding emergency, issues at hand on (Selfridge), 58
Changes in health care financing, implications for ED manager of (Sparger and Nenner), 109
Chemical dependency of impaired nurse (Green), 23
Chest trauma, blunt, resulting in cardiac contusion (Hammond), 236
Child, fifteen-month-old, iron overdose in (Judkins), 31
Chromium ingestion, case report of (Clochesy), 281
Chronic mentally ill patient, ED assessment of (Feldman and Cousins), 162
Classification, patient, and required nursing time in pediatric emergency department (Kromash), 69
  system, patient, developing for emergency department (Schulmerich), 298
Clinical assessment of suicidal patient in emergency department (Pelletier and Cousins), 40
  nurse specialist for your emergency department (Hall), 175
Coma, hyperglycemic hyperosmolar nonketotic (Leske), 145
Communication patterns between ED manager and staff members, analyzing of (O'Sullivan), 229
Competency-based orientation program for emergency department (Selfridge), 246
Concluding process, use of, to assist grieving families (Williams), 254
Contusion, cardiac, resulting from blunt chest trauma (Hammond), 236

D

Dependency, chemical, of impaired nurse (Green), 23
Depression update (Pelletier and Cousins), 315
Detection, screening and, in abuse of elderly (Fulmer, Street, and Carr), 131
Developing patient classification system for emergency department (Schulmerich), 298
Development of cardiopulmonary resuscitation form (Bradford and O'Sullivan), 65

*January/February, pp 1-56; March/April, pp 57-122; May/June, pp 123-180; July/August, pp 181-232; September/October, pp 233-276; November/December, pp 277-344.

Diagnosis related groups, effects on nursing of (Henderson and Sullivan), 117
Diastolic pressure, role of, in advances in cardiac life support (Craven and Hedges), 204
Diving emergencies (Budassi), 178
Duty to disclose patient information (George), 273

E

ED assessment of chronic mentally ill patient (Feldman and Cousins), 162
medical advice telephone calls and who calls and why (Knowles and Cummins), 283
Elderly, abuse of, screening and detection in (Fulmer, Street, and Carr), 131
Emergency centers, freestanding, issues at hand on (Selfridge), 58
nursing, standards of care in (George), 52
Evaluation, staff performance, what, why, and how of (Miller), 74
Examinations, ophthalmic (Budassi), 112
Exsanguination, traumatically induced hemorrhage and, prehospital care in (Anderson), 141

F

Families, grieving, use of concluding process to assist (Williams), 254
Fear in ED patients (Danis), 151
Financing, health care, implications for ED manager of changes in (Sparger and Nenner), 109
Freestanding emergency centers, issues at hand on (Selfridge), 58

G

Genital herpes infections, primary, acyclovir for (Halpern), 268
Glossary of psychiatric terms (Cousins), 215
Grieving families, use of concluding process to assist (Williams), 254
Group practice, innovative ED nurse practitioner (Walrath, Levitt, and Styka), 239

H

Health care financing, implications for ED manager of changes in (Sparger and Nenner), 109
Hemodynamic monitoring, invasive, an overview of (Hurst), 11
Hemorrhage and exsanguination, traumatically induced, prehospital care in (Anderson), 141
Herpes infections, primary genital, acyclovir for (Halpern), 268
Hickman catheter (Budassi), 54
Home-bound patients, Lifeline for monitoring from emergency department (Dibner), 294
Honeybee toxin, massive, shock secondary to (Menish), 185
Hospital admission, preparation of ED patient for (Hughes), 160
Hostage incidents, health care–based, role of ED nurse in (Turner), 190
Hyperglycemic hyperosmolar nonketotic coma (Leske), 145

I

Impaired nurse, chemical dependency of (Green), 23
Impalement, unusual case of (Lee), 62
Infection(s), primary genital herpes, acyclovir for (Halpern), 268
urinary tract (Hughes), 92
Information, patient, duty to disclose (George), 273
Ingestion, chromium, case report of, 281
Injury severity, assessment of, with Trauma Score (Carl), 242
Innovative ED nurse practitioner group practice (Walrath, Levitt, and Styka), 239
Intervention, immediate, with use of mnemonic ABC^4, primary trauma survey and (Sheehy), 220
Invasive hemodynamic monitoring, an overview of (Hurst), 11
Iron overdose in fifteen-month-old child (Judkins), 31

J

JEN looks in the mirror (Lenehan), 1

L

Legal issues and risks of ED care (Reitz), 82
Legislative arena and paramedic practice setting issue (Danis), 115
Lifeline for monitoring home-bound patients from emergency department (Dibner), 294

M

Management of ED patient with borderline personality disorder (Cousins), 94
Manager, ED, and staff members, analyzing of communication patterns between (O'Sullivan), 229
Marketing concepts for emergency department (Vestal), 274
Medical advice telephone calls, ED, and who calls and why (Knowles and Cummins), 283
Mentally ill patient, chronic, ED assessment of (Feldman and Cousins), 162
Methemoglobinemia (Sherer), 27

Missed trauma in emergency department (George), 228
Mnemonic ABC⁴, use of, primary trauma survey and immediate intervention with (Sheehy), 220
Monitoring home-bound patients from emergency department, Lifeline for (Dibner), 294
invasive hemodynamic, and overview of (Hurst), 11
Multiple-trauma patients, protocol for, and team assignments (Sheehy), 265
Mushroom poisoning (Scherger and Wruk), 194
Must emergency departments try to save every life (Robbins and Gidley), 209

N

Naloxone, a study of its use in shock (Halpern), 222
Nontraumatic splenic rupture in previously healthy adult (Molitor), 128
Nurse practitioner group practice, innovative ED (Walrath, Levitt, and Styka), 239
specialist, clinical, for your emergency department (Hall), 175

O

Ophthalmic examinations (Budassi), 112
Orientation program, competency-based, for emergency department (Selfridge), 246
Overdose, iron, in fifteen-month-old child (Judkins), 31

P

Pain assessment by ED nurses (Hoyt and Sparger), 306
Paramedic practice setting issue, legislative arena and (Danis), 115
Patient classification and required nursing time in pediatric emergency department (Kromash), 69
Pediatric emergency department, required nursing time in, and patient classification (Kromash), 69
instruction sheets (Hughes), 37
resuscitation, making task easier in (Halpern), 47
Performance evaluation, staff, what, why, and how of (Miller), 74
Personality disorder, borderline, management of ED patient with (Cousins), 94
Pigmy rattlesnake, snakebite by (Scott), 187
Poisoning, mushroom (Scherger and Wruk), 194
Practitioner group practice, nurse, innovative ED (Walrath, Levitt, and Styka), 239
Prehospital care in traumatically induced hemorrhage and exsanguination (Anderson) 141
Preparation of ED patient for hospital admission (Hughes), 160
President's message (Ernst), 57, 181
Primary trauma survey and immediate intervention with use of mnemonic ABC⁴ (Sheehy), 220
Procaine, psychotic reaction to (Hart), 9
Protocol for multiple-trauma patients and team assignments (Sheehy), 265
Psychiatric terms, glossary of (Cousins), 215
Psychotic reaction to procaine (Hart), 9

R

Rabies vaccine, reduced risks and fears of (Halpern), 101
Rattlesnake, pigmy, snakebite by (Scott), 187
Reaching out (Brown), 233 (President's message)
Recall, record, in emergency department (George), 174
Record recall in emergency department (George), 174
Resuscitation form, cardiopulmonary, development of (Bradford and O'Sullivan), 65
pediatric, making task easier in (Halpern), 47
Reye's syndrome, update on (Martelli), 287
Risks, legal issues and, of ED care (Reitz), 82
Risky business (Brown), 277 (President's message)
Role of ED nurse in health care–based hostage incidents (Turner), 190
Rupture, nontraumatic splenic, in previously healthy adult (Molitor), 128

S

Save every life, must emergency departments try to (Robbins and Gidley), 209
Screening and detection in abuse of elderly (Fulmer, Street, and Carr), 131
Shock secondary to massive honeybee toxin (Menish), 185
study of use of naloxone in (Halpern), 222
Snakebite by pigmy rattlesnake (Scott), 187
Specialist, clinical nurse, for your emergency department (Hall), 175
Splenic rupture, nontraumatic, in previously healthy adult (Molitor), 128
Staff members, ED manager and, analyzing of communication patterns between (O'Sullivan), 229
performance evaluation, what, why, and how of (Miller), 74
Standards of care in emergency nursing (George), 52
Subpoenas (George), 108
Suicidal patient in emergency department, clinical assessment of (Pelletier and Cousins), 40

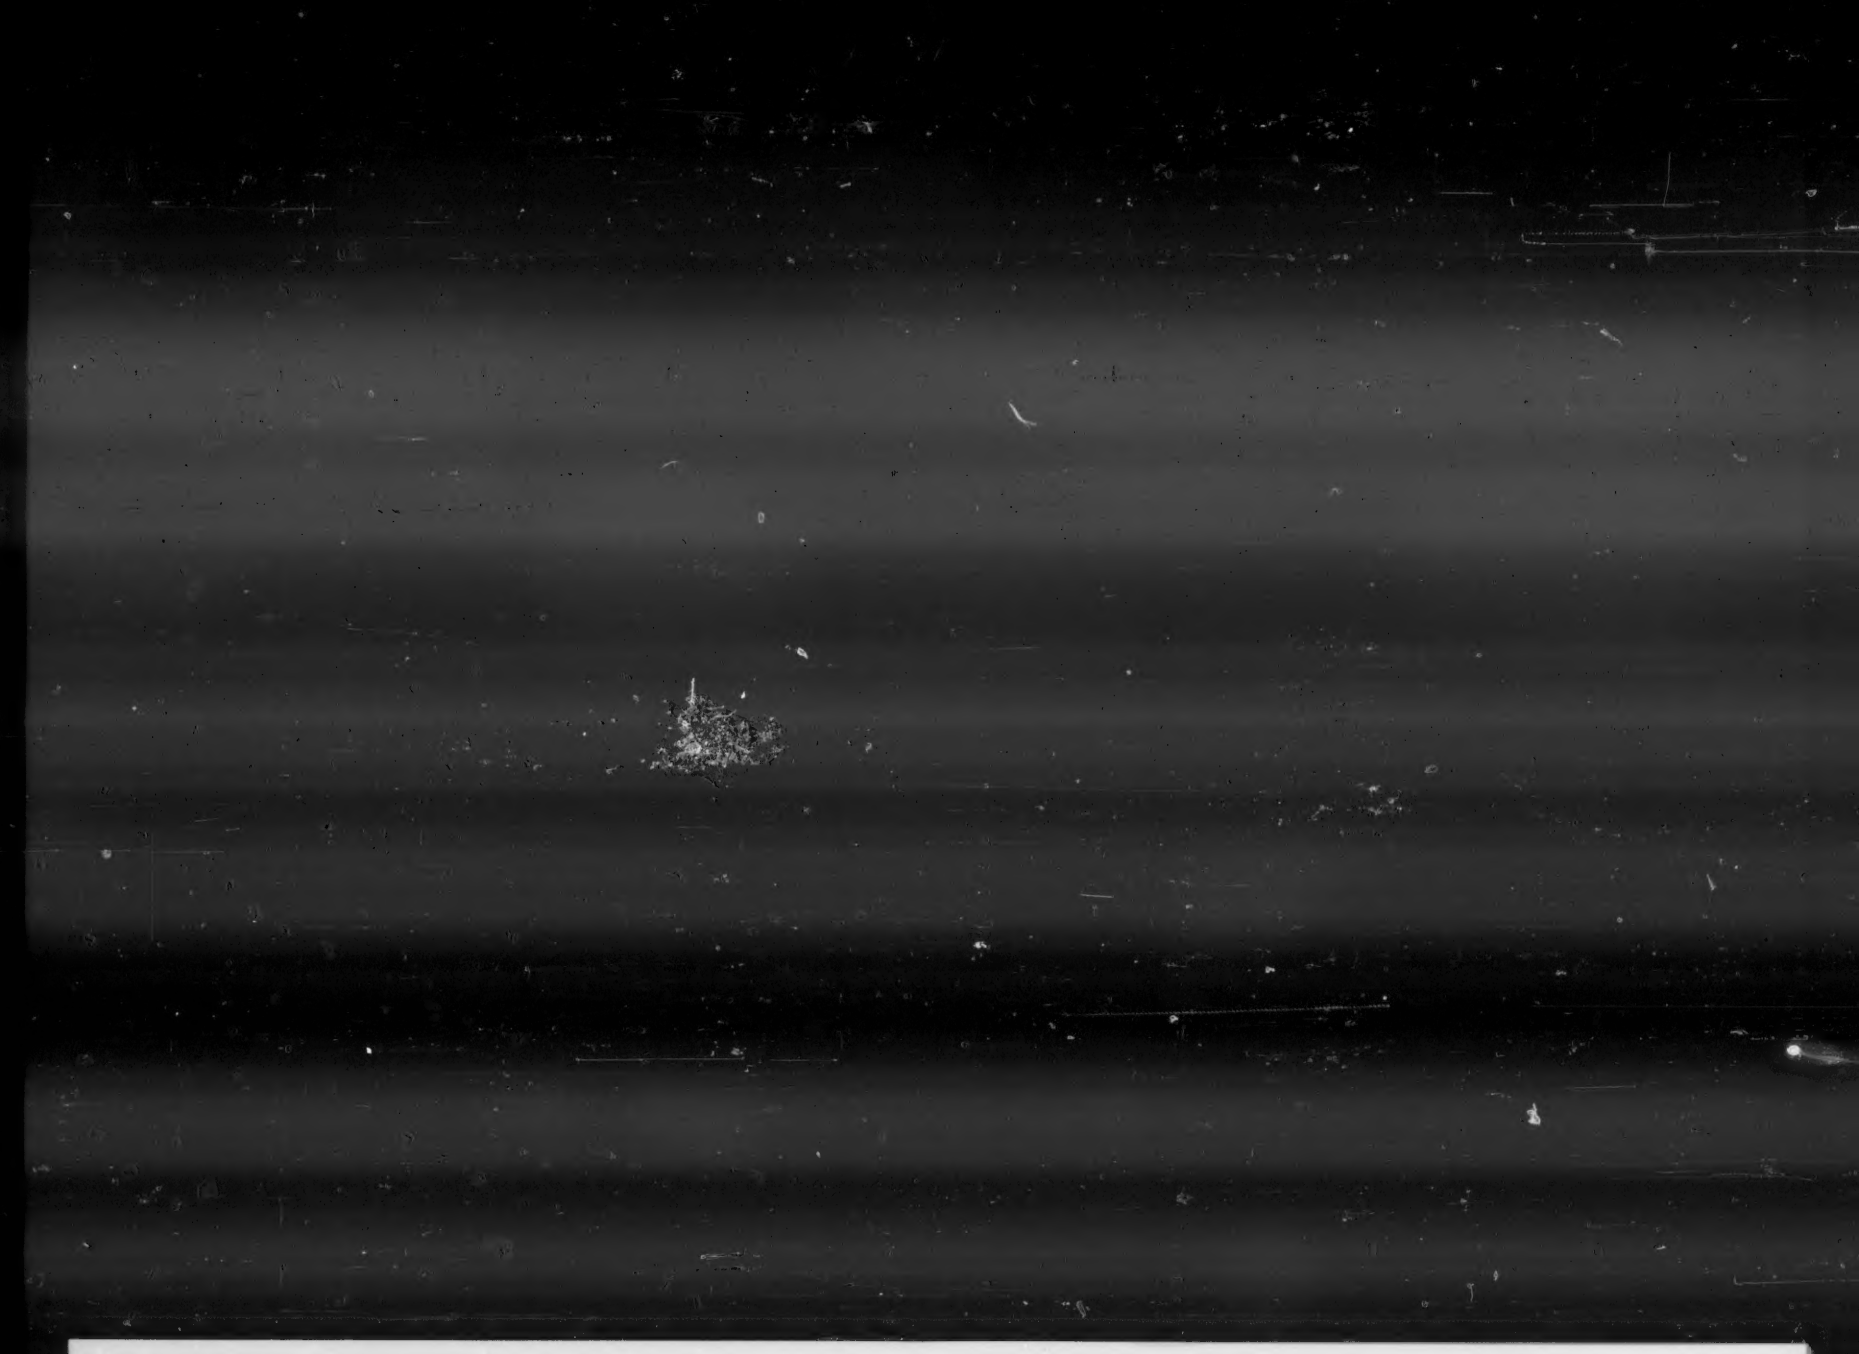
T

Team assignments, protocol for multiple-trauma patients and (Sheehy), 265
Telephone calls, ED medical advice, and who calls and why (Knowles and Cummins), 283
Terminally ill emergency patient (George), 333
Topical agents and emergency care for minor burn injuries (Abshagen), 325

Toxin, honeybee, shock secondary to massive (Menish), 185
Trauma, blunt chest, resulting in cardiac contusion (Hammond), 236
missed, in emergency department (George), 228
multiple, protocol for, and team assignments (Sheehy), 265
Score, assessment of injury severity with (Carl), 242
survey, primary, and immediate intervention with use of mnemonic ABC⁴ (Sheehy), 220
Traumatically induced hemorrhage and exsanguination, prehospital care in (Anderson), 141
Traveler, advising the (Halpern), 168

U

Unusual case of impalement (Lee), 62
Urinary tract infection (Hughes), 92
Use of concluding process to assist grieving families (Williams), 254

V


Vaccine, rabies, reduced risks and fears of (Halpern), 101
